

COULD YOU CONTRIBUTE TO WINE INDUSTRY R&D PROGRAMS?

Australian Government
Grape and Wine Research and
Development Corporation

Applications for GWRDC funding for 2010-2011 are now OPEN

The Australian wine industry is facing a number of challenges. The Grape and Wine Research and Development Corporation (GWRDC) manages research investments on behalf of the Australian wine industry and the Australian Government. Research and extension organisations, consultants and individuals are invited to submit preliminary project applications, which address any of the priorities outlined in the GWRDC's Five Year R&D Plan 2007-2012.

The GWRDC will prioritise available research and extension resources toward proposals that will help the wine industry to respond to global competition and adapt to changing environmental conditions. Accordingly, applications addressing these objectives within all GWRDC research programs will be of high priority. Issues of regional significance will also be considered.

Applications for projects to commence on 1 July 2010 will be accepted until **COB Friday, 2 October 2009**.

For application forms, the Five Year R&D Plan and further information about the GWRDC and other funding opportunities, including support for Honours and PhD studentships, visit the GWRDC website - www.gwrdc.com.au
