

50 World Class Chardonnays

Thank you for taking the time to taste our 50 World Class Chardonnays last week at Saatchi Gallery. We were delighted with the response to this tasting which attracted top media and buyers alike.

Our objective was to highlight the stylistic evolution of Australian Chardonnay and proffer that price and style are not always intrinsically linked.

The tasting inspired debate and comment; "Australia is rapidly evolving its styles of Chardonnay which range from the popular brand to more sophisticated styles with distinctive regional characteristics capable of matching the best in the world." Anthony Rose, The Independent

The complete list of 50 wines follows with their UK distributor/retailer details, together with vintages, alcohol levels and R.R.P's.
